Verse 1

(What you is?) I'm dat Pusher man Butcher man
Chop they heads off bury em in the sand
Like dat king from Texas man
Swisha House call em swisha man
In this game this how I flip up man
I beat it up eat it up that's how I regurg it man
Send them Gurus down to the size of Ant Man
Blow em all out the way they students now my fans
Even though that wasn't part of the plan
After this track on they square they better stand
I just need them to be better man
Am I green like the hulk? call be banner man
I banned them from the SPC land
Stealing green fiat from the poor man's hands
I beat em on down like a drum in a band
So I'm not gonna push I'm about to butcher man
